

Rua built a stable "coming away" from Maungapohatu. In other words this side of the Whakatahea double entry Pa for both Whakatahea + Tehoe.

Tatai ahape Pa was built under the instruction of Chief Amanu Kihoro Te Pou up the Waioatahe Valley 1906.

↳ Tahora is of relatively recent origin. The old name was Mahao Mahao or Mahaou, when it was taken over by a Forestry Company + planted in Forestry. Tahora is the traditional name of an area just north of Whakarae.

Biddle Whanau lived at Tahora. Whakarae is opposite where the Biddle Whanau are now.

Big Tuiroa Pa - West side of Waioatahi Rd
North Side = Atuarere stream.
Close to the Waioatahi Forest

Rua Tahi is near Waioatahe Forest next to lots of Walnut trees.

The Manager was a Gorrie. Lived at Kutarere. =

↳ Manager of N.E. Forest Headquarters

When Baker and others were surveying Tahora + Oamaru to break up into blocks, they did not take into account the recognised ancestral lands.

They cut straight through them with their confiscation line.

The Maori Trustee - Crown agency allowed wrongful processes to be used that enabled the wrong whanau to claim other whanau land.

Ngatapa = Ngatirua + others used Ngatapa as a retreat
also Rongopoto + Kahuki

Well documented by Kahungunu re the Harongo case that
went before the Waitangi Tribunal re Te Atangi a Mahaki.

These notes taken from Te Atangi a Mahaki documents

Kauhāi Track book good for referencing for the
whakatohea lands beyond the Confiscation Line.
