I want for information de Notice Servé de for
 Thirator to Hawke Bay land, see sections 158 & 192 Pt. Waikato
 I think that it would be a mistake to cut them up
 land of the nature of these sections is of little use in
 small farms - a man has applied several times
 whose 158 feet up. he is a man who would make a
 good seller & if this piece is not put up soon he
 talks of leaving the country I believe that he has
 Brother ^{who} lives on a section adjoining. It appears a mistake
 to go to the expense of cutting up these sections when people are
 ready to take them all as they are ^{with out much trouble}
