

Mr. McIntyre.

RE: CONVERSION.

I attended the Court at Opotiki on the 12th and 13th Oct., as representing the Conversion Section but due to the poor attendance of the people who were supposed to prosecute their applications little work was done. I devoted most of my time on getting information re successions and locations of 182 application No. 68 re; Waioeka 337A. This application has been before the Court since 1947 but up to date only 7 sections has been located which are covered by Interlocutory Orders. The project is a housing one and on my visit to the Waioeka Pa a number of people approached me with regard to their housing problems.

I advised them that the first thing to do is to try and get sole title to one of these sections on which to build a house and then to make the necessary housing application. I told them that the owners at present in the title of the land were mostly deceased and it was necessary to get succession made to them. They asked if I would spend a day or so with them to do this work. I was fortunate to meet people at the Court who gave me some of the information I required. I intend bringing the Data up to date and get further information if required and locations completed so that this can be finalised by the Court at Opotiki in December. The Judge intimated to me he would like to clean this up before retiring.

CONVERSION OFFICER.

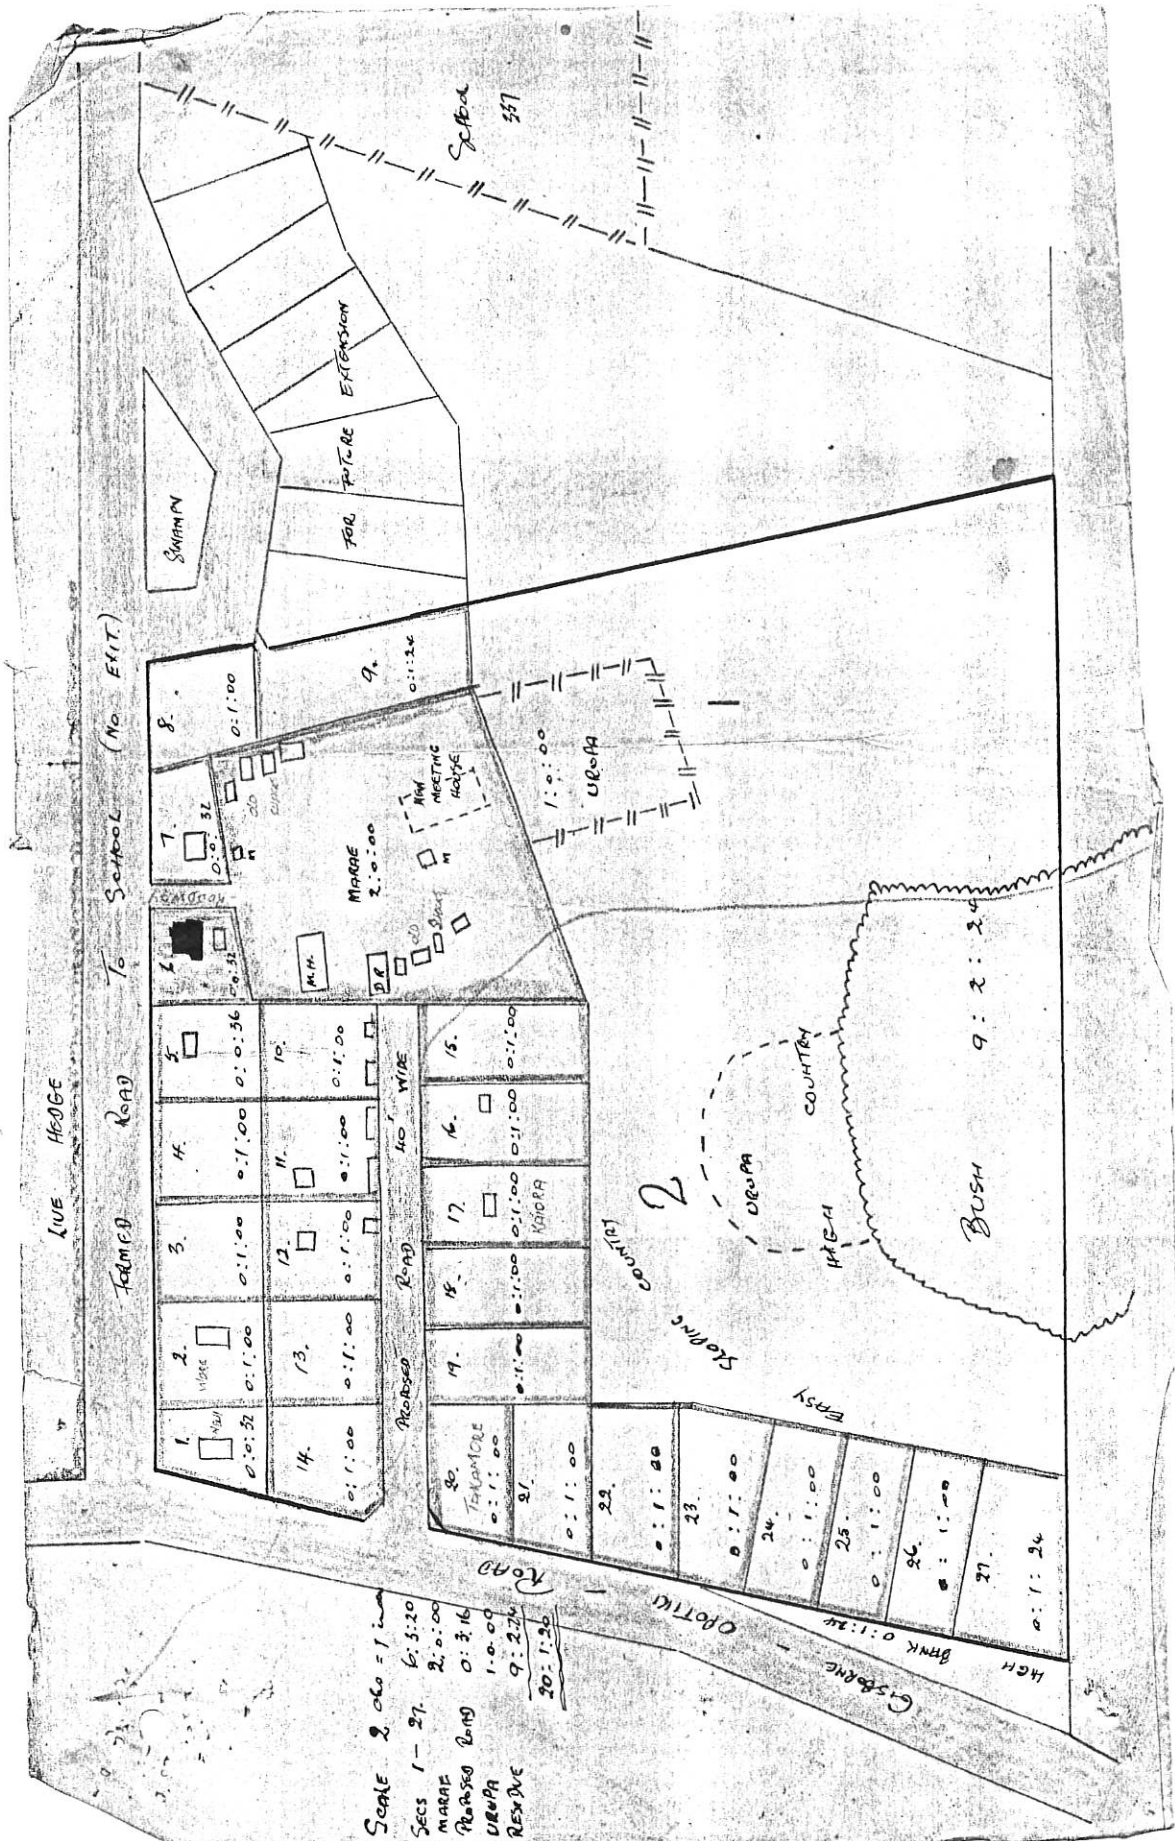

14/10/50

See plan of Scheme attached locations already made are sections 2, 5, 6, 8, 13, 17, 20.

Mr Anam

Yes schedule for your attention - I would like to get a few housing 55 applications in this area
