Judge Johnson defined the shares of the owners
at Opotiki on the 17th March 1898.

I think nothing of the substance complained
of which appears to be that certain persons
who are not owners & have no rights are
proposing to squat on the land. These
are only their applications for succession awaiting
hearing.

The books are correct.

If I might make a suggestion it would be that Mr. Roberts
should inquire into the matter next time he is at Opotiki. The
files for succession could be advertised for hearing by
him and he could deal with them at the same time.
