Dear Doctor

There were twenty of the

The King party is content  
being messengers and  
letters to the natives and  
the white people. The  
headman they make for  
is Nipina at Tokohina  
They do not go past the  
Whakatohea, the white  
people having no wish  
to see them. But they  
was surprised when they  
saw the Whakatohea  
were on their way home
